**For 3 to 6 players**

**WARNING: CHOKING HAZARD -**  
Toy contains small parts.  
Not for children under 3 years.

# THE BEST OF CHARADES FOR KIDS

## RULES

### Object:

Be the first player to reach the FINISH space.

### Contents:

Game board, charade cards, 6 movers, game die, label sheet.

### Set Up:

Place the labels, in any order, on the game die. Shuffle the cards and place them face down on the table. Each player selects a mover and places it at start. The youngest player goes first, then play moves to the left.

### Playing:

Start by rolling the game die and turning the top card over so only you can see it. You will be acting out the charade that corresponds to the number you rolled.

If the player is too young to read, they will act out the picture on the top of the card.

Act out the charade to the player to your left, who will get the first chance to guess. They are allowed only one guess

for each turn! If their first guess is incorrect, the next player gets to say one answer, and so on.

As soon as a player guesses correctly, that player moves their mover ahead 2 spaces. The player who was doing the charade moves ahead one space. If none of the players guess correctly, no players move and that round is over.

The player to the left of the charade giver now takes their turn acting out a charade and so on.

### **All Play Spaces:**

If you land on an All Play space, stay there and, **ON YOUR NEXT TURN**, roll the die and see what charade you have to act out. **ALL** the players have a chance to guess out loud—at the same time—what the charade is. The player that guesses correctly, and the charade giver, both move ahead one space. The player to the left of the charade giver now takes their turn and so on.

### **Ending and Winning the Game:**

The first player to reach finish (exact count is not necessary) wins the game.
