

For 2 players • Ages 6 and up

4 IN A ROW

INSTRUCTIONS

Object of the Game

To make a line of four disks in a row horizontally, vertically or diagonally.

Contents

Game console with base, 23 red disks and 23 yellow disks, instructions.

Set-up

Assemble the frame and base and place the console between the players.

Each player should then take all the disks of one color and place them in the base on their side of the frame.

Youngest player starts. If playing more than one game players should start alternately.

Playing

Each player on his turn places one of his disks in any one of the seven columns in the frame. Play then passes to the other player.

Play continues this way until one player achieves a row of 4 of his disks, in which case he has won the game, or until no row of 4 is possible in which case the game is a draw.
