

pretty ponies

Three cute ponies to style and show!

Instructions

a fun with Chimp and learn with Zee craft

There are three pretty ponies for you to make using the decorations supplied. There is also a pony jump to make. Create fabulous manes and tails to design your very own ponies. You can also add your own extra decorations.

If you want to color your own ponies and backgrounds, do this first. (Crayons not included.) Turn the pieces over to see the pictures in black and white. There are also some blank sheets for your own designs.

Instructions

All you need to know is how to tie knots and bows! When you are confident with these then try braiding for great effects.

You will find it easier to decorate your pony first then slot in the legs to finish off.

Knots

Simple knot - thread strands of wool through a hole (see pic 1). Use the plastic dowel to help push the wool through.

Cross one end over the other piece (see pic 2) and

slot through the loop (see pic 3).

Pull tight to fasten. (Then make a double knot if you wish)

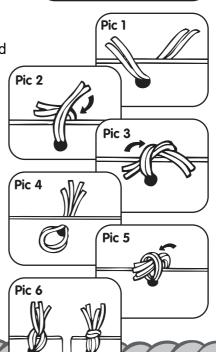

Loop knot - Fold strands of wool and thread through a hole (see pic 4).

Push the loose ends through the loop (see pic 5). Pull tight. This will look different from the front and the back - so you can do it either way to get the effect you want (see pic 6).

Bows

Thread the ribbon through two holes, or round a section of wool, and tie in a knot (see pic 7). Pull tight.

Make a loop (see pic 8) of Cross the of around the loop that ho Pull the bow

Braids

plied. There your very

yons not ere are also Make a loop with one end of the ribbon (see pic 8) and hold it with one hand.

Cross the other half of the ribbon over and around the loop. Push the ribbon through the loop that has now been created (see pic 9). Pull the bows to tighten the knot.

Braids

To make lovely thick braids you can use a few strands of wool together. Try mixing different colors for a great effect.

Take 6 long strands of wool. Thread them through two holes from the back (see pic 10). Pull so that the ends are even lengths.

Divide the wool into 3 sets of 4 pieces (see pic 11).

Start the braid by moving the right hand strands over the middle strands to make a new middle strand (see pic 12).

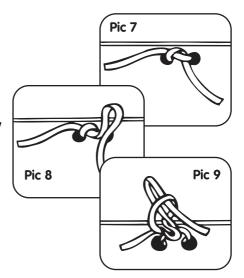

Then move the left hand strand over to become the middle strand (see pic 13).

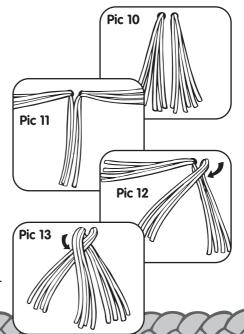

Remember - right to the middle, then left to the middle, then right to the middle. Repeat until the braid is the length you want.

Tie another piece of wool or some ribbon round the end so the braid doesn't come loose.

Threading

Take a piece of ribbon or wool and thread it in and out of holes to make a pattern. This is sewing without a needle! Take care to knot the ends at the back so it doesn't come loose.

ponies to style and show!

Threading beads

Take a piece of ribbon and thread a bead onto it. Tie the end of the ribbon in a knot around the bead. Then add the other beads and tie the other end of the ribbon onto your pony.

Note: Always remember to ask an adult to help you cut the pieces to the length you need.

Pony Jump

Slot the two supports into the main piece so it will stand up.

Stickers

Now use the stickers to decorate whatever you wish.

Display

Open the box and slot the display panel in position as shown on the back of the box.

Put the ponies and the jump in the front section of 'The Stables' to display. Remember you can take the decorations off and make different ponies to play and display again.
