Rules

a **fun** with Chimp and **learn** with Zee game

Contents

- Fairytale castle (2 pieces)
- Enchanted forest game board (4 sections)
- 4 princess playing pieces
- 4 coaches
- Wicked Queen playing piece
- 2 dice (1 number, 1 picture)
- 16 princess cards

Object

To be the first to find your invitation, dress, tiara and glass slippers, put them in your coach, and get your Princess back to the Fairytale Castle for the Ball!

Get set

1. Assemble the 4 pieces of the game board (match the shoes to get it correct).
2. Slot the Fairytale Castle together and place in the center of the game board (match the colors so your Castle walls and track are the same color).
3. Each player chooses a Princess and places her on the Castle space on their board section – in front of their Castle.
4. Each player takes her colored coach and places it in front of them.
5. Each player takes her 4 colored accessories and places them face down in the center of their board section – remembering which is which.

Play

1. The first player rolls the number dice and moves accordingly clockwise around the board (the footprints being space 1).
2. When a player lands on a 'Coach' space they roll the picture dice:
A. Invitation, Dress, Tiara, Shoes - Player has a chance to guess which of the 4 cards face down in front of them is the correct item.
Player turns over one card, if they are correct then the card is put into their coach.
If they pick a wrong card it is returned to the board face down and the player must try to remember which one it is for their next turn.

Dress for the ball - but watch out fo

If a player rolls invitation, dress, tiara or shoes and already has that item, they get another roll (but not another one after that).

B. Magic Stars - Player can take any one of their cards and put it into their coach.

3. When a player lands on a 'Wicked Queen' space the player moves the Wicked Queen piece to any other player's castle space, then:
 - a. they can either mix-up the other player's cards or
 - b. make the other player put a card back onto the board from their coach.
4. When a player has collected all 4 cards in their coach, play continues until that player gets around the board and lands on any of their colored spaces (if you land on the Wicked Queen space in your section this doesn't count as a colored space and play continues). They can then move to their castle space and win the game!

Win

The first player to collect all 4 cards and get back to their Castle space is the real Princess.
