

GREEN LANTERN

DOMINOES RULES

For 2 to 4 players, ages 4 and up

Object:

Be the first player to get rid of all your dominoes.

Contents:

28 Green Lantern dominoes

Set Up:

Place all the dominoes, face down, on the table and mix them.

If two people are playing: each player takes seven dominoes and stands them in front of them so that their opponent cannot see them.

If three or four people are playing, each player takes five dominoes.

The remaining dominoes form the draw pile.

The youngest player starts, then turns are taken clockwise.

Playing:

The first player lays down any one of their dominoes on the table face up. The player to the left now takes their turn, trying to match one of the ends of the domino that was just played. Throughout the game, players can match a domino to any one of the two open ends of the trail.

When a player cannot match either of those ends, they take a domino from the draw pile.

If they are able to place that domino, they do so—and their turn ends.

If they are unable to place that domino—their turn ends.
If there are no dominoes left in the draw pile—their turn ends.

Doubles:

Whenever a player plays a domino that has the same picture on both ends, that domino is placed crosswise against the domino you place it against.

Ending and Winning the Game:

The first player to get rid of all of her/his dominoes wins. If no more moves can be made, the player with the fewest dominoes left wins.
