

# WARNING: CHOKING HAZARD - Small parts. Not for children under 3 years.

## Object:

Be the first player to collect 5 solution cards.

#### Contents:

2 identical game boards, 2 plastic buses, 49 solution cards, label sheet

### Set Up:

Using the package back as a guide, apply the labels to one side of both buses. Each player takes one decorated bus and one game board.

# Playing:

Carefully fold any one of the 49 solution cards in half and place it in between players so that both can see the animals on the bus. The same picture is on both sides of the card. Every solution card shows 5 animals on the top section of the bus and 4 animals (not counting the dog on the bus label) on the bottom section. Those 9 animals—and the order in which they are sitting on the bus—is what players are trying to match in their plastic bus.

Each player places their bus flat on their game board and starts moving it around, looking at the solution card whenever they want, as they try to match up the animals and their locations. When a player has the line-up correct, they call out, "On the bus!" and leave their bus in the correct location on the game board.

To double check that they are correct the player looks at the number that's in the rectangular cutout between the wheels of their plastic bus. Then turn to the white side of the solution card and see if the number printed there matches the one showing through the bus. If it matches, that player gets to keep the card. If it doesn't match, players continue until one of them matches it.

## **Ending and Winning the Game:**

The first player to collect 5 solution cards wins.
